SUMMARY

Product and program manager, 13 years in Silicon Valley. Delivered Google Search launches to billions of users, built policy platforms at Google Play, and led mission-critical programs at Cisco. MBA candidate at UIUC (4.0 GPA), PMP and CSPO certified.

EXPERIENCE

Business Strategy & Operations Consultant

2024 – 2025

Karya Tools - Jakarta, Indonesia

- Built the HR function from scratch: 16 hires in 5 months, hiring policy, and payroll, reaching 4.7/5 employee satisfaction.
- Designed the systems and workflows the business runs on, across ordering, operations, and people.
- Prioritized and sequenced 60+ tasks across the team, consulting 6 people directly, so effort landed where it mattered.
- Consulted on the ordering, warehouse, and fulfillment processes, designing the flows and working alongside the team to cut idle time, duplicate work, and errors.
- Set the business strategy and drove execution across every function of the company.

Program Manager

2022 – 2023

Google Search - Mountain View, CA, USA

- Led 8+ cross-functional teams to launch a new Search framework worldwide, reaching billions of users. Covered by The Verge and TechCrunch.
- Delivered “Things To Know” and “Quick Facts” across mobile and desktop with 5+ teams, lifting engagement and reducing re-queries.
- Delivered on a surface measured against global scale: every launch had to hold up across languages, devices, and markets before going live.
- Owned biweekly executive updates, executive presentations, and partner newsletters, recognized by senior executives.

Technical Program Manager

2018 – 2022

Google Play - Mountain View, CA, USA

- Coordinated 5+ cross-functional teams to launch policy review and enforcement platforms covering 1M+ apps using sensitive permissions.
- Delivered review tooling for Apple and Google’s COVID-19 contact-tracing APIs, recognized publicly by both companies ([Google tweet](#), [Apple tweet](#)).

- Led two platform migrations across 50+ workflows and 6,000+ users with zero interruption to a ~3M apps/quarter operation.

Incident Program Lead

2015 – 2017

Cisco Systems - San Jose, CA, USA

- Led a 15-person team stabilizing three compensation systems for 2,000+ sales agents.
- Resolved 300+ incidents per quarter and drove an initiative that cut incidents 30%.
- Stabilized all three systems within 18 months, presenting service reviews to directors and the sales VP.

INDEPENDENT PROJECTS

Katakataku — *Founder & Builder, Etsy print-on-demand shop*

2026

- Launched Katakataku from concept to a live storefront with 30 designs in one week, owning brand, listings, supply chain, and storefront end-to-end.
- Built an automated weekly analytics workflow using n8n + Claude that pulls Etsy data, generates key metrics and insights, and emails actionable recommendations.

Lift Log — *Founder & Builder, Android workout-logging app*

2026

- Owned the app end-to-end from PRD through UX design (Figma) and build (Replit); in final QA ahead of Google Play's production review.
